Cartesian Coordinate System

Solve the questions

1. Write the coordinates of point Q.
2. Write the coordinates of point N.
3. What is the abscissa of point M?
4. What is the ordinate of point S?
5. Name the point whose coordinate is (2, 1).
6. Name the point whose coordinate is (-5, -1).
7. Name the point whose abscissa and ordinate have the same numerical value.
8. What is the coordinate of point E?
9. What is the coordinate of point F?
10. What is the coordinate of origin?
